Enterprise Service Level Agreement (SLA) Policy

Document Classification: Internal Enterprise Policy & Standard Operating Procedure

Effective Date: January 1, 2026 | **Version:** 2.4

1. Policy Overview

This document defines Acme Industrial Distribution's delivery and support SLAs across customer tiers. All logistics, fulfillment, and operations coordinators must uphold these operational deadlines.

2. Tier Commitments

Delivery fulfillment windows are structured as follows: Standard Tier customers receive fulfillment within 72 hours of order confirmation. Premium Tier customers are guaranteed delivery within 48 hours. Enterprise Tier accounts are contracted for priority 24-hour turnaround on all in-stock and scheduled orders.

3. SLA Breach Penalties

Fulfillment delays exceeding contracted delivery windows incur severe commercial penalties: A delay beyond 12 hours past the target SLA window requires a 5% billing rebate. Delays past 24 hours trigger an automatic 15% account credit and require immediate management intervention.

4. At-Risk Warning Horizons

Any order approaching delivery deadline with less than 48 hours remaining where fulfillment or inventory availability is uncertain must be flagged immediately as an SLA Risk exception.
